Dear Mr. Brown:

Last week, I informed you that I planned to raise the question of environmental sensitivity in the House of Commons before the Christmas break.

Unfortunately, due to other important national health issues, I was unable to raise the issue in the House before the end of the fall sitting. I have, however, issued a press release which I have circulated to members of the Press Gallery, informing them that I believe environmental sensitivity is an important health issue that deserves the immediate attention of the federal government.

I extend to you my best wishes during this holiday season and for the new year.

Yours sincerely,

Sheila Copps

Member of Parliament
for Bridgton
United Conservative Party
